Figure A28: Word Count by Complainant Gender and Crime Type

Note: Figure presents box plots for the word count by complainant gender and crime type, where each dot is a registered report (FIR). Y-axis is scaled to a maximum of 3000 words, for ease of visualization. Mean in red. Women’s cases and VAW crime are longer in terms of the first-person testimonies/contain more detail about the offense.

6.1 STM on Corpus of Crime

Topics that the machine generated can be identified with highest probability words as well as FREX or frequent and exclusive words to specific topics (Table A9.) Based on Figure A29, the top five most common crime types include “public intoxication” and “bootlegging” (Topic 19), “burglary” (Topic 16), “auto theft” (Topic 22/23), and “kidnapping” (Topic 27). As indicated in the FREX words, kidnapping cases usually involve women or girls as victims.⁵⁹ Self-explanatory topics include “fighting” (Topic 17), “gambling” (Topic 28), “phone theft” (Topic 26), “driving misdemeanor” (Topic 14), “robbery” (Topic 29), drugs or “narcotics” (Topic 31), and “phishing” (Topic 4).

Machine generated topics that may require additional context include the following: “electricity theft” refers to the illegal connection of wires to power grids (Topic 30). Topic 13 or “injury” can include cases in which a complainant has been hurt from hit-and-runs to construction accidents. Topic 15 refers to absconding from law enforcement or ‘jumping bail.’ Topic 6 represents cases related to the sand or mining mafia that smuggle or steal natural resources. Topic 24 refers to cases involving fraud and deception, typically financial.⁶⁰ Topic 18 or “arms” refer to cases involving unlicensed weapons manufacture and smuggling. Cases involving the word ‘Muslims’ in Topic 25 are classified as “minorities.” Topic 1 or “unlicensed” refers to cases involving unlicensed doctors, fraudulent certificates, and fake medical exams. Topic 5 or “cattle” is illustrative of illegal smuggling of cows as well as cattle slaughter. Topic 9 or ‘railway’ refers to crimes committed in trains or railway platforms, while “accident/attack” or Topic 10 involves someone being attacked, including with a weapon. Topic 20 or “property” and Topic 32 or “real estate” refer to cases involving property and real estate disputes, respectively. Relatedly, Topic 12 or “development” represent illegal land purchases, including by corporations.

Appendix Figure A30 highlight the top topics that are disproportionately associated with female complainants. These include “dowry-A” and “dowry-B” (Topics 3 and 8), as well as “lewd behavior” (Topic 11).⁶¹ ‘Lewd behavior’ encapsulates cases from blackmailing women in releasing compromising photos⁶² to harassing women in public places. The case most likely associated with female complainants are dowry cases, wherein a victim complains to the police about the physical, mental, and emotional abuse her husband and in-laws perpetrate, usually in order to extort money from her natal home. Appendix Figures A32-A35 highlight word clouds associated with each of the topics.

Figure 5 highlight the likelihood of conviction based on the topic metadata, as well as the correlation between topics. In Panel B we see that the machine correctly estimated the relationship between topics where, for instance, Topic 10 and Topic 13 (‘accident’ and ‘injury’) are related to each other, as are “cattle” and “minorities,” suggesting that Muslims are disproportionately victimized for alleged offenses related to cow slaughter or smuggling. Similarly, “dowry-A,” “dowry-B” and “lewd behavior” are all highly correlated in terms of the language used in the crime report. Cases involving public intoxication, fake currency, and gambling have higher levels of conviction. Nevertheless, the plot suggests that topics related to VAW crime, as well as those brought by female complainants, are unlikely to lead to formal punishment.

59. Kidnapping may also be closely connected with cases classified as missing persons.

60. These cases generally invoke Indian Penal Code Section 420.

61. Other cases associated with female complainants include phishing (Topic 4), fighting (Topic 17), kidnapping (Topic 27), robbery (Topic 29), and missing persons (Topic 7).

62. Cases associated with the Information Technology Act.

Figure A29: Top Topics (All Crime, N=418,190)

Note: Panel A: Top topics in full crime corpus in Haryana, India, and highest probability words in the topics. Panel B: FREX words (frequent and exclusive) or distinguishing words of the topics.

Figure A30: All Crime I

Note: Coefficients and standard errors for a structural topic model of all police complaints with female complainant (=1) and urban (=1) as predictors. Panel A shows that cases involving missing persons, dowry, fighting, kidnapping are likely to have a female complainant. In Panel B, economic offenses (e.g., phishing, development and real estate disputes) are more likely to be urban.

Figure A31: All Crime II

Note: Coefficients and standard errors for a structural topic model of all police complaints with suspect acquittal in court (=1) and court dismissal (-1) as predictors. In Panel A, topics related to fighting, accidents (including driving accidents), have better acquittals. In Panel B, topics related to kidnapping (including female kidnapping) are more likely to be dismissed.

Figure A40: VAW Crime I

Note: Coefficients and standard errors for a structural topic model of police complaints involving VAW (filed by women or male friends/family of victim) with female complainant (=1), urban locale (=1) as predictors. In Panel A, we see that most forms of VAW are registered by women, but not all, e.g., kidnapping or topics related to trafficking are registered by friends/family. In Panel B, topics related to kidnapping are more likely to be urban.

Figure A41: VAW Crime II

Note: Coefficients and standard errors for a structural topic model of police complaints involving VAW (filed by women or male friends/family of victim) with suspect acquittal in court (=1) and court dismissal (=1) as the predictors. In Panel A, rape is more likely to result in acquittal. While these cases are also likely to result in conviction, it indicates that such cases are reaching a decision/verdict more quickly. Panel B shows that topics related to kidnapping are likely to be dismissed by a judge.
